Dear Brucie,

We thought you would like a newly remodeled office that would allow you to take advantage of all that California has to offer....wide open spaces, sunny smog filled skies, and if you're lucky, you get to spend all day by the pool.

However, why be by the pool when you can be in the pool. We know you were expecting a prank and not such a kind gesture, but we love you, Bruce – and we're not afraid to show it!

Your best fans!
